

FT-1 Flat Tie – Standard and Heavy

SAFE WORKING LOAD

TYPE	SWL (lbs)
FT-1 STD.	2,250
FT-1 HVY.	3,000

Safe working load is based on an approximate 2:1 safety factor.

The FT-1 Flat Tie is designed for use on most standard modular forming systems. Both the Standard and Heavy versions utilize Wedge Bolts to secure the formwork. Standard and Heavy Flat Ties are available in lengths 6" to 36" in 2" increments. Breakback is 1/4". Other lengths available on special order.
