

FT-4 Flat Tie – Standard and Heavy

SAFE WORKING LOAD

TYPE	SWL (lbs)
FT-4 STD.	2,250
FT-4 HVY.	3,000

Safe working load is based on an approximate 2:1 safety factor.

The FT-4 Flat Tie Type M is similar in design, construction and use to the Standard (FT-1) Flat Tie, but has ends that are 5/8" shorter. Type M Flat Ties are available in standard and heavy versions and have a 1/4" breakback.
