

Mesh Bar Chair with Base (MBCB)

Up to a #5 Rebar and Mesh

The Mesh Bar Chair with Base (MBCB) is a light duty, composite chair with sand plate for use on soft surfaces and/or slab on grade to correctly position and hold the wire mesh securely in place. Each size chair is designed to service two mesh positioning heights. It is available in heights from 5/8" to 6". It can be used to support up to a #5 rebar.

Features:

Engineered for maximum concrete consolidation. The MBCB is manufactured from a proprietary blend of plastics and modifiers.

- Available nail down feature
- Concrete gray color and invisible footprint
- One chair accommodates bottom or top mats
- Designed for maximum concrete consolidation
- Easy quick connect feature on continual members
- Manufactured from a proprietary blend of plastics and modifiers

MESH BAR CHAIR with BASE DATA
